

Wisconsin Public Health Information & Referral
Maternal & Child Health Hotline
1-800-722-2295
www.mch-hotlines.org

The Maternal and Child Health Hotline is funded through a grant from Wisconsin Department of Health Services. This is a 24-hour helpline focused on providing resource information for pregnant women, postpartum mothers, and families with young children. In addition to providing information via the toll-free line the resource database is also accessible to the public through the Web site: www.mch-hotlines.org.

We are interested in gathering information about the agencies and organizations throughout Wisconsin that provide services to pregnant women and families with young children which support their health and well-being.

We are specifically requesting any resource information available regarding substance abuse assessment and treatment services for pregnant women in Wisconsin. If you provide these services or know of an organization that does provide these services could you provide as much of the following information as possible?

AGENCY / ORGANIZATION NAME: _____

PHONE NUMBER: _____ **WEB SITE:** _____

ADDRESS: _____

CONTACT PERSON: _____

CONTACT PERSON'S EMAIL: _____

BRIEF DESCRIPTION OF THE SERVICE(S) OFFERED: _____

WAPC will send this questionnaire to the Maternal and Child Health Hotline database staff. Teresa Halverson, from the Maternal and Child Health Hotline will follow up with this information by contacting the agency to gather complete information and permission for their inclusion in the Maternal and Child Health Hotline database.

Thank you so much for helping us to provide good resources to people in Wisconsin, supporting healthy pregnancies, healthy birth outcomes, and healthy families!
